

This listing of claims will replace all prior versions, and listings of claims in the application:

Listing of Claims:

Claim 1-9 (Cancelled).

Claim 10. (Currently Amended): The method of Claim 9- 21 wherein C is a diepoxide.

Claim 11. (Cancelled).

Claim 12. (Currently Amended): The method of Claim 11 22 wherein C is a diepoxide.

Claim 13. (Currently Amended): A molded article obtained by the method of Claim 7 19.

Claim 14. (Currently Amended): A molded article obtained by the method of Claim 9 20.

Claim 15. (Currently Amended): A molded article obtained by the method of Claim 9 21.

Claim 16. (Currently Amended): A molded article obtained by the method of Claim 10 22.

Claim 17-18 (Cancelled).

Claim 19. (New): A method of using a reinforced molding compositions wherein the resin is at least one member selected from the group consisting of (co)polyamide 6 and (co)polyamide 66, the composition characterized in that its viscosity is greater

1000 s⁻¹ , at a processing temperature that is 40 to 80°C above the melting point of the molding composition, said method comprising preparing an article by thermoforming.

Claim 20. (New): The method of Claim 19 wherein the viscosity is greater than 1500 Pas at shear velocity of 10 s⁻¹ and is less than 280 Pas at shear velocity of 1000 s⁻¹ .

Claim 21. (New): The method of Claim 19 wherein the composition comprise A) 98 to 41 parts by weight of said resin and B) 2 to 50 parts by weight of reinforcing materials, and C) 0.1 to 4 parts by weight of branching additives and/or additives raising the molecular weight and D) 0 to 5 parts by weight of further additives, the sum of the parts by weight of A, B, C, D totaling 100.

Claim 22. (New): The method of Claim 19 wherein the composition comprise A) 67 to 85 parts by weight of said resin and B) 15 to 30 parts by weight of reinforcing materials, and C) 0.2 to 1 part by weight of branching additives and/or additives raising the molecular weight, D) 0.1 to 2 parts by weight of further additives, the sum of the parts by weight of A, B, C and D totaling 100.
